

Flow Traders B.V.**Terms of Business****Introduction**

We are Flow Traders B.V., an investment firm registered with and regulated by the Dutch Authority for the Financial Markets (*Autoriteit Financiële Markten*). This license allows us to deal for our own risk and on our own account only. The principles set out below follow directly from our regulatory status and shall govern our relationship regardless of other contractual provisions.

In our transactions with you we act as a principal only, for our own risk and on our own account. We do not provide any agency, investment service or any ancillary service as defined under MiFID II to you, nor are we an Advisor, Manufacturer or Distributor in the sense of MiFID II. We will not hold or manage client money or client assets as defined in MiFID II.

It may be the case that you are acting for or on behalf of underlying third parties. In that case we identify you as our trading counterparty. No relationship with, or responsibilities, obligations or liabilities in respect of, such underlying third parties is implied unless we agree to separately accept them as our counterparty. You alone shall be responsible for deciding to enter into a transaction with us and whether you are allowed to do so under applicable laws, regulations or other provisions. You alone shall be responsible for accepting the relevant elements of a transaction, including the instrument, quantity and price. When a person reasonably appears to be your authorized representative, we rely on such appearance to enter into binding transactions with you without further inquiry.

Trading

We trade with you on a Request-for-Quote basis ("**RfQ**"): you have the sole discretion to accept or reject our quotes by interacting with them, shopping around, or abandoning the prospective transaction. Neither we nor you are obliged to enter into any transaction with each other. Our quotes are specific in terms of instrument, quantity and price. A transaction materializes if a quote is accepted by the recipient of such quote. We do not handle or execute your orders; we trade on a principal basis.

Trading Financial Instruments

We quote listed, and otherwise transparent financial instruments for which prices are generally available on other venues. As we trade with you as principal and do not provide you with any agency, investment or ancillary service as defined in MiFID II, we will not undertake a suitability and/or appropriateness assessment on you or any instrument we trade with you. In summary, you do not legitimately rely on us when trading RfQ, and best execution does not apply.

Where relevant and unless explicitly agreed otherwise, we classify you as eligible counterparty. You have the right to request a different categorisation. However, if you request categorisation as a professional or retail client, we may not be able to continue our relationship with you. When you are our approved counterparty for trading Financial Instruments (as defined in MiFID II), unless agreed otherwise, we may trade with you as our counterparty OTC, in our capacity of Systematic Internaliser or on trading venues (such as MTFs). We submit all transactions that materialized to our clearing member for settlement on the basis of delivery-versus-payment in accordance with relevant market conventions and our standard settlement instructions (as provided to you) unless agreed otherwise. Please refer to our Systematic Internaliser disclosures for more information, available online via <https://www.flowtraders.com/what-we-do/institutional-trading/disclosures/>, as updated from time to time.

Trading FX and precious metals

When you are our approved counterparty for trading FX and/or precious metals, we can trade with you directly or via a platform. When trading with you directly we do so on a disclosed basis. Where we trade with you on a platform, we do so either fully disclosed or semi-disclosed, based on your preference or that of the platform. Although trades are given up to our prime broker, we trade in a principal capacity when dealing with you and do not act as agent or in any other advisory or ancillary capacity. We will settle our transactions with you through our prime broker in accordance with relevant market conventions and give-up agreement unless agreed otherwise. With respect to FX, we adhere to the [FX Global Code of Conduct](#). Please refer to our FX disclosures for more information on our FX trading, available online via <https://www.flowtraders.com/what-we-do/institutional-trading/disclosures/>, as updated from time to time.

Trading digital assets

When you are our approved counterparty for trading digital assets, we may trade with you OTC. We will settle our transactions with you on free-of-payment basis, which entails that we deliver our cash or digital asset leg of the transaction to you following receipt of your cash or digital asset leg of the transaction. You alone shall be responsible for the timely and correct communication of your relevant public key or standard cash settlement instructions to us for settlement purposes. You alone shall be responsible that trading is in accordance with laws and regulations applicable to you and you have the necessary approvals (regulatory or otherwise) to trade in digital assets.

We will have no responsibility for or liability with regard to any cash or assets we receive other than in respect of a transaction. Any such cash or assets will be returned to the sender, except to the extent we are precluded from doing so pursuant to any applicable anti-money laundering and anti-terrorism laws and regulations, at the cost and risk of the sender. We will not be responsible for any losses, liabilities, expenses or costs suffered by the sender in such case (including, but not limited to, any loss of such assets due to a Force Majeure Event (as defined below)).
